## Alert of the week – Snap Map

We have previously mentioned Snap Map but this app is still causing us concern. It continues to raise genuine safety and security issues for children, schools and parents. A quick reminder how to switch off SnapMap when taking photos using Snap Chat.

### Switching Off Snap Map

- When in photo-taking mode, pinch the screen to open Snap Map
- Touch the settings cog in the top right corner of the screen
- Tap "Ghost Mode" to switch off location sharing
- Photos and videos posted to Snapchat's public 'Our Story' will still be discoverable on the map
